Client/Institute Name	:	**KIOT – SDET 2026**
Course	:	**Automation Testing with Selenium**
Technical Assessment	:	**18**
Module	:	**Basic Selenium, Synchronization, Action Class and JavaScript**
Date	:	**15-Apr-25**
Time	:	**02:30 P.M – 04:30 P.M**
Duration	:	**2 h**
Total Marks	:	**50 Marks**

Part A – 1 x 20 = 20 Marks

Part B – Java Selenium Script Creation (Total Marks: 30)

Application Under Test

- **Website: Demoblaze**
- **URL: https://demoblaze.com/**

General Instructions

1. **Launch the browser using Selenium WebDriver.**
2. **Perform all operations as per the scenarios provided.**
3. **Use appropriate locators:**
   - **id, name, className, CSS Selector, XPath, etc.**
4. **Use System.out.println() to display expected outputs.**
5. **Follow proper coding standards and structure.**
6. **Ensure synchronization where required (implicit/explicit waits).**
7. **Use Action Class and JavaScript Executor wherever specified.**

SmartCliff SmartCliff

Expected Output Messages

- **"Login Successful"**
- **"Product added to cart"**
- **"Product Name and Cost verified successfully"**
- **Purchase done Successfully**
- **"Alert handled Successfully"**

Question 1: Login to the Application *(5 Marks)*

Scenario

- Navigate to the application.
- Click on the Login link.
- Enter valid username and password.
- Click the Login button.

Validation

- Verify successful login by checking:
    - User greeting message OR
    - Presence of a home page element

Expected Output

System.out.println("Login Successful");

Question 2: Category Navigation & Product Handling *(10 Marks)*

Scenario

- After login:
    - Navigate to Laptops category.
    - Retrieve all available laptops.
    - Sort products in ascending order.

SmartCliff SmartCliff

    - Store results in a Set.
    - Use:
        - Action Class
        - JavaScript Executor

- Scroll to MacBook Pro and verify its title.

Validation

System.out.println("Found Laptop: " + productTitle);

Expected Output

- Display all available laptops after sorting.

Question 3: Add Product to Cart *(5 Marks)*

Scenario

- Select MacBook Pro.
- Click Add to Cart.
- Navigate to Cart page.

Validation

- Verify:
    - Product Title
    - Product Price

Expected Output

System.out.println("Product added to cart");
System.out.println("MacBook Pro added to cart.");

Question 4: Place Order *(5 Marks)*

Scenario

- Navigate to Cart.
- Click Place Order.

SmartCliff SmartCliff

- Fill all required details.
- Click Purchase.

Validation

```
if (purchase.contains("Order Id")) {
   System.out.println("Order is placed successfully");
   // Print Order ID, Amount, Date
} else {
   System.out.println("Order is Unsuccessful");
}
```

Question 5: Alert Handling *(5 Marks)*

Scenario

- Handle alert pop-ups wherever they appear.

Validation

```
System.out.println("Alert handled successfully.");
```
